

D3: Dents, Dings and Demons

A bad boy I'm not
Spite the life I've seen
And I'm glad you've taken notice
What I say
Is what I mean
And I'm living proof
A good man's hard to find

Girl we've taken our tumbles
We've paid our dues
Let's take what's left of living
Let me spend it loving you
And all of this drama
Leave it all behind

(CHORUS)

So, baby let's take all our
Dents, Dings and Demons
Let's live the life we never had
Take the good hell with the bad
Just you and me side-by-side
Let's pack it up and hit the road
It's time we lost our heavy load
No regrets
No reason
Just you and me girl
And our Dents, Dings and Demons

Write our own story
Build a new life
Lose our heartache
End the strife
Just you and me
Side-by-side
And hand-in-hand girl

So, baby let's take all our
Dents, Dings and Demons
Let's live the life we never had
Take the good hell with the bad
Just you and me side-by-side
Let's pack it up and hit the road
It's time we lost our heavy load
No regrets
No reason
Just you and me girl
And our Dents, Dings and Demons

instrumental

So, baby let's take all our
Dents, Dings and Demons
Let's live the life we never had
Take the good hell with the bad
Just you and me side-by-side
Let's pack it up and hit the road
It's time we lost our heavy load
No regrets
No reason
Just you and me girl
And our Dents, Dings and Demons

So baby, we'll take all our
Dents Dings and Demons
Let's live the life we want to
Love each other
Till we're through
And let the drama fall behind

Let's pack it up and hit the road
It's time we lost our heavy load
No regrets
No reason
Just you and me girl
And our Dents, Dings and Demons

The end
